

Southbridge Infection Prevention & Control Consulting

Quality Care Through Innovation and Excellence

It's time to translate the success of our Infection Prevention and Control (IPAC) program to assist other long-term care and retirement homes.

WHY CONSULT SB IPAC?

We believe that every senior deserves quality and safe care no matter where they live. Based on the track record of success in our IPAC program, we are offering consultancy services to other long-term care and retirement homes to help strengthen their infection prevention and control, enhance care quality, and improve resident safety.

WHAT MAKES US DIFFERENT

- ✓ Our team is made up of certified IPAC professionals with over 30 years of combined IPAC experience in the sector.
- ✓ As a long-term care and retirement home operator, this is our unique niche, and we come with evidence-based firsthand solutions.
